Product Description

Rhino Ag FA613 72" Finish Mower

The FA Series Finishing Mower Series Features A Tapered, Sloped Discharge Area To Provide Even Distribution Of Cut Material Across The Width Of The Mower. This allows for less clumping and windrowing than similar mowers that use chain guards or rubber deflectors. In addition, built-in baffles help control the air and material flow through the cutting chamber, assuring an even cut and even material distribution across the width of the mower.

Over-the-deck axle design provides outstanding structural integrity and easy access to conventional height adjustments. Durable ABS molded safety shields are standard to provide safe operation for years and easy access to lube points.

FEATURES AND BENEFITS

- Three-Blade Design With 1" Blade Overlap Reduces the Possibility of Streaks and Skips in Your Yard.
 - Available in 5', 6', and 7' Widths to Provide the Best Match for Your Yard and Tractor.
 - Top and Bottom Hitch Points "Float," Allowing the Mower to Ride With the Terrain.
-
