### Product Description

## Rhino Ag SRT48 48" Light Duty Tiller

Rhino rotary tillers offer state-of-the-art design and superior features for unparalleled quality and performance in a number of applications.

SRT tillers are rated for 10 to 50 HP tractors and are ideal for hobby use, gardening, or general landscaping. Ranging in widths of 40" up to 73", Rhino SRT tillers are especially popular with weekend farmers. Each SRT features a Cat 3 driveline with slip clutch protection and a heavy-duty chain rotor drive system for maximum durability.

The SRT series features a chain drive rotor system. The gears and chains run in a fully enclosed oil bath for constant lubrication and long service life. Adjustable skid shoes are standard on every Rhino tiller to help maintain the desired tilling depth.
